## SUMMARY

Dynamic and self-motivated Full Stack Developer with expertise in Next.js, React.js, TypeScript, Tailwind CSS, and MongoDB. Proven track record in designing responsive user interfaces and building scalable solutions. Adept at collaborating with cross-functional teams to deliver high-quality software that meets user needs. Committed to continuous learning and adapting to new technologies in the ever-evolving tech landscape.

## WORK EXPERIENCE

- Associate Software Engineer, Geeksforce****Aug 2024 - Present**
  - Developed innovative web and mobile applications using Next.js, React Native, and TypeScript, building scalable and high-performance solutions.
  - Collaborated with UX/UI designers and stakeholders to create seamless user experiences and ensure design consistency across applications.
  - Researched and implemented best practices and tools to enhance development processes, improving both code quality and development speed.
  - Optimized web performance by refactoring and modularizing components in Next.js, leading to faster load times and improved user engagement.
  - Integrated MongoDB and other third-party APIs into projects, ensuring efficient data handling and dynamic content rendering.
- Frontend Web Developer, CodersDiv****Aug 2023 - Sept 2024**
  - Led projects to create high-performance web applications using React.js and JavaScript.
  - Designed responsive interfaces with Bootstrap and Tailwind CSS to adapt seamlessly across devices.
  - Worked cross-functionally to translate conceptual designs into functional applications, refining features based on user feedback.
  - Conducted user testing and implemented feedback to refine application features, improving usability and overall user satisfaction.

## EDUCATION

- Bachelor of Science in Information Technology (BSIT)****Aug 2021 - May 2025**

University of Education, Lahore

  - Gained a deep understanding of Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Database Management Systems (DBMS), and Operating Systems (OS), which formed the foundation of my technical skills.
  - Worked on projects that helped me improve my coding skills and understand how to create and improve software.

## KEY SKILLS

- Frontend Technologies:**
  - Next.js
  - React.js
  - JavaScript
  - TypeScript
  - Tailwind CSS
  - SASS
- Backend Technologies:**
  - Node.js
  - MongoDB**Full Stack Development:**
  - API handling
  - Component rendering
  - Responsive design
- Version Control & Tools:**
  - Git
  - GitHub
  - Postman**Soft Skills:**
  - Problem-Solving
  - Adaptability
  - Time Management
  - Continuous Learning
